

Vision

To empower students through
agency, purpose, and innovation
to create their future.

Mission

Academic Excellence x
Humanness x Innovation

The Four Pillars of 10X

Academic Excellence

Where intelligence ends, wisdom, ethics, and judgment define human excellence

Life Entrepreneurship

Self-reinvention as the foundation for entrepreneurs who build, create, and contribute to the greater good

Social Equity

Ensuring world-class education creates equal opportunity, not inherited privilege

Nation Building

Building India by retaining, empowering, and inspiring its global talent

Programmes at 10X

Grade 11 & 12 - Diploma Programme (DP 1 & 2)

Arts

- Visual Arts

Mathematics

- Analysis & Approaches
- Applications & Interpretations

Language & Literature

- English

Individual & Societies

- History
- Geography
- Economics

Sciences

- Computer Science
- Physics
- Chemistry
- Biology

Language Acquisition

- Hindi
- French
- Spanish
- French Ab Initio
- Spanish Ab Initio

Core Components: Theory of Knowledge (TOK) | Extended Essay (EE) | CAS

Exponential Curriculum

The Exponential Curriculum at School 10X is designed for a future we cannot fully predict. It prepares students not for a single outcome, but for informed choice. Academic rigour is integrated with innovation, entrepreneurship, and leadership. Students are prepared for admission to premier universities in India and abroad, as well as for entrepreneurship as a meaningful life path.

IB MYP & DP frameworks

**Competitive exams like
JEE, NEET, SAT & global
assessments**

**Advanced conceptual
mastery**

Collaborative Learning Model

The 10X collaborative learning model brings together teachers, students, and artificial intelligence. While AI supports knowledge acquisition, teachers mentor and shape the child, and students exercise agency. Learning becomes a shared responsibility — human-centred, reflective, and future-ready.

Teacher

- Key concepts & relevance
- Socio-emotional support
- Ethics & character building
- Research & application
- Entrepreneurial competencies
- Learning how to learn

Student

- Reflection & introspection
- Pursue a lifelong vision
- STEAM-H & research
- Apply learning and innovate

AI Companion

- Concepts & content
- Generative AI discussion
- Sentiment analysis
- Automated assessment & analytics
- Immersive learning experience

STEAM-H Philosophy

The 10X STEAM-H philosophy integrates Science, Technology, Engineering, Arts, Mathematics, and Humanities. In the age of AI, knowledge alone is not enough. What matters is how knowledge is applied — with judgement, ethics, and purpose. STEAM-H ensures that while technology advances learning, humanness remains central.

STEAM-H Bag

Your School, Your Lab, Anywhere

You don't just carry a backpack to school — you carry your school in your backpack!

Life Entrepreneurship

In a fast-changing world, adaptability, self-direction, and inner stability matter more than fixed job paths. Life Entrepreneurship places the individual at the centre of innovation — their thinking, values, and capacity to grow. The person becomes the product before any venture is created. Business Entrepreneurship then transforms that inner strength into meaningful innovation in the world.

Student-Led Innovation

At 10X, innovation isn't theory — it's built, tested, funded, and recognised.

Sankritech

Water management solution for farm ponds and urban lakes
Patent: In Process

Respire X

Smart respiratory support wear with integrated monitoring
Patent: In Process

Project Breathe

Engineered filtration prototypes to combat indoor air pollution
Recognition: INR 5 Lakh Incubation Award (Mesa School of Business);
Most Global Impact Award (University of San Diego)

Project 3Netra

AI system for early detection and prevention of aggression in public places
Project Status: Proof of concept

Vision Xcelerate

Smart glasses enabling caregiver monitoring for dementia patients
Project Status: Proof of concept

Genius Day

Guided Freedom. Real Ownership.

Genius Day is a dedicated space where students design their own learning. Guided by curiosity and purpose, they identify questions, pursue ideas, and reflect on outcomes. With mentor support, students exercise agency, learn through experimentation, and discover how their interests connect to real-world challenges and meaningful contribution.

Student-led planning and execution

Mentor-guided reflection and feedback

Continuous improvement cycles

The future rewards thinkers — not followers.

College Counselling

College counselling at 10X is not about applications alone, but about alignment. Students are guided to reflect on their strengths, interests, and purpose, and to make informed choices for universities in India and abroad. The process emphasises clarity, responsibility, and long-term readiness for life beyond school.

**1:1 Career
counselling
& profiling**

**Strategic
application
planning**

**Essay,
interview &
portfolio
mentoring**

**Parent
partnership
throughout
the journey**

**Our students are placed at the world's top universities,
with \$3M+ in scholarships.**
